

Project 5-2: Guessing Game (Debug)

Debug an existing program.

Console

```
Guess the number!

Enter the upper limit for the range of numbers: 100
I'm thinking of a number from 1 to 100.

Your guess: 50
Too low.
Your guess: 75
Too low.
Your guess: 87
Too low.
Your guess: 94
Too low.
Your guess: 97
Too high.
Your guess: 95
Too low.
Your guess: 96
You guessed it in 7 tries.

Play again? (y/n): y

Enter the upper limit for the range of numbers: 10
I'm thinking of a number from 1 to 10.

Your guess: 5
Too low.
Your guess: 7
Too low.
Your guess: 9
Too low.
Your guess: 10
You guessed it in 4 tries.

Play again? (y/n): n

Bye!
```

Specifications

- Your instructor should provide a program file named `p5-2_guesses.py`.
- Your job is to test the program and to find and fix all the errors that it contains.
